Is it OK to update the main data page? Will it affect the map? Just checking, because (as you saw) there's a request to update the main data page.

Thanks!

Yes. We (1) post 8/17 data on the 8/17 data page; and we also (2) add a link on the general data page to the 8/17 data page.

I'm thinking that I won't end up editing (and therefore republishing) this page tonight:

<http://www2.epa.gov/goldkingmine/data-gold-king-mine-response>

It sounds like the only updates will be to some page **\*linked\*** from that page. Jeff will know for sure, though, methinks! ☺

Well, you won't have to touch the map. I don't understand the other part of the question. Jeff?

Just to make sure:

On this page:

<https://wcms.epa.gov/goldkingmine/data-gold-king-mine-response>

I don't have to edit (and therefore republish) it? I don't have to re-code anything on the map? Sorry, those are somewhat separate questions. ☺

Thanks!

Hi Tim,

**1) THINGS I DID.**

on page <http://www2.epa.gov/goldkingmine/data-gold-king-mine-response>

added a "no data" sentence for August 16.

for Aug 17 data, I created a draft page at 8/17 data page

<https://wcms.epa.gov/node/107071/revisions/223615/view>

**2) THINGS PENDING THIS EVENING.**

If the data spreadsheet actually happens:

1) please add " (XLSX)" to the end of the file name, when Drupal makes you change the file name. We need to indicate the file type, and Drupal isn't doing this automatically; it's been me all along.

2) add a link to the 8/17 data page, on here:

<https://wcms.epa.gov/goldkingmine/data-gold-king-mine-response>

### **3) FYI ONLY.**

We don't do the map, we only embed it: David Yogi of R9 asked about the map showing Region 9 sampling locations." Nancy Grantham and Danny are handling.

The PIO / EOC Web approval people changed. The people are now John Senn, Laura Gentile, and Micah Ragland.

Rich Mylott asked about a high-res photo. EPA photographer Eric Vance is following up.

There was a brief sidebar about whether or not to change the email destination of the Contact US form submit function, but nothing decided.

Danny talked to them about regularizing the time to post data. Probably to become late mornings.
